PTA Activity Report 2022- 2023 Batch

The PTA committee held a meeting on 15-12-22 to decide on a date for the Parent and teacher interaction for the batch of 2022-2023. The members of the committee decided to conduct the PTM on 12-12-22.

The core purpose of PTA meetings is to discuss the academic performance of a child. PTA meetings are an opportunity for the parents to discuss their child's academic performance with the teachers. All students know about your child's strongest and weakest subjects, what are the proofs of his strengths and weaknesses in those subjects, and how improvements can be made in any particular area of concern. The internal marks are regularly sent to their respective parents through email. The PTA meeting is a medium for the parents to analyze and work on your child's academic performance.
