STRATEGIC PLAN DOCUMENT

Strategic planning is the institution's process of defining its strategy, making decisions on allocating its resources to pursue this strategy and also includes the steps to be taken in the implementation of the strategy.

The long-term plans and short-term plans have been laid down as proposed by the principal, in consultation with the college council.

Short term plans

- Introduction of academic audit system
- Utilize innovative teaching tools to engage students more effectively.
- Emphasis of student centric learning methods with continuous evaluation and feedback from the students.
- Provide counselling and mentoring services for students.
- Conducting CDE programmes and workshops for enhancement of skills and knowledge at UG level.
- Constitute Institutional Research Committee.
- Encouragement of innovation leading to publications, patents, trademarks and copyrights.
- Promoting faculty scholarships.
- Create platforms (physical / virtual) for sharing research concepts across different departments.
- Develop research media (newsletters /blogs, etc.)
- To organize modules and short courses in different dental specialties.

Long term plans

- Digitalisation of the patient records according to the guidelines of National Digitalisation Health Mission.
- Joint venture/partnership with medical institution for academic excellence.
- Strengthen the bondage with community and social organization.
- Seek research grants or setup organizational funding for in house research.
- Provide state-of-the-art facilities and laboratories that can function as or serve multidisciplinary research needs of faculty community.
